

VOLUNTARY CERTIFICATION SCHEME FOR MEDICINAL PLANT PRODUCE **- CERTIFICATION CRITERIA**

1.1 This document describes the requirements against which certification can be obtained under the Certification Scheme for Medicinal Plant Produce.

1.2 The certification is available at two levels:

Option 1

Individual producer/collector applies for certification and gets certification for his/her produce.

Option 2

A producer/collector group applies for group certification and the producer group, as legal entity, gets certification.

1.3 Certification criteria

The certification under the scheme requires ensuring conformity to standards on Good Agricultural Practices (GAP) for Medicinal Plants-Requirements and Good Field Collection Practices (GFCP) of Medicinal Plants-Requirements

1.4 The GAP & GFCP requirements when evaluated against Control Points and Compliance Criteria (CPCC) enunciated in these standards must conform.
