**Call for proposal**

**Subject: Call for proposal on establishment of Poshan Vatika under the Herbal Garden component of National Medicinal Plants Board (NMPB), Ministry of Ayush - reg.**

Sir/Madam,

The NMPB, Ministry of Ayush, under its Central Sector Scheme (CSS) on 'Conservation Development and Sustainable Management of Medicinal Plants' intend to provide project-based financial support to the government and private organizations to establish *Poshan Vatika* in Eklavya Model Residential Schools (EMRS) of NESTS, Ministry of Tribal Affairs throughout the country.

**Activities and Budget for Poshan Vatika**

The Poshan Vatika will be established for growing minimum 30 species of fruits, vegetables and medicinal plant species (having nutritional value) in the minimum area of 100 sqm up to 1 acre in each Eklavya Model Residential Schools (EMRS) to provide nutritional support to school going children.

The activities supported would include design layout, land development, site protection, preparation of bed, procurement of basic planting material, initial maintenance, signage, walking trails, irrigation facilities etc.

**Norms of Assistance**

**BUDGET (RECURRING AND NON-RECURRING BUDGET)**

Details of financial implication for minimum of **100 sqm land up to 1 acre land** is as under: -

**Note: Financial implication for 3 years is INR 7,00,000 (1<sup>st</sup> Year for Establishment INR 4,50,000, 2<sup>nd</sup> Year for maintenance INR 1,25,000, 3<sup>rd</sup> Year for maintenance INR 1,25,000)**

Proposals in this thrust area are to be submitted to <https://anudan.ayush.gov.in/> scheme under the Herbal Garden component of the Central Sector Scheme (CSS) for Conservation, Development and Sustainable Management of Medicinal Plants. The deadline for submission of project proposals shall be **three weeks from the date of publication** of the advertisement.

**Note: The best organizations will be selected based on merit and presentation of their project proposal. The schools will be selected as per fund availability.**

#### Term of Reference

- Teachers, officers with relevant academic background, appropriately qualified NGO would be eligible to become PI/Co-PI. In case the PI is working in Govt. Organization they should have at least 3 years left to superannuate.
- Proposal submitted through Ayush NGO portal, will only be eligible for further consideration as per NMPB scheme guidelines. No other mode of proposal submission shall be entertained.

#### Eligible

- Govt. Organizations & Non-Government Organizations / Voluntary Organizations with demonstrated expertise.

#### Norms of Assistance

- Qualified organizations will be eligible for 100% assistance.
- Rest of the condition remains same as per NMPB CSS guidelines as well as Poshan Vatika.

## 1. BACKGROUND

Malnutrition and food insecurity plagued India for several decades. The country has been consistently ranked among the poor performers of the world in the Global Hunger Index. Malnutrition varies widely across regions, states, age, gender, and social groups. India's tribal population suffers the most compared to any other socio-economically disadvantaged population group. Malnourished children do not attain their optimum potential in terms of growth, learning, performance in school, and physical development to work later in life. India, as one of the fast paced economies in the world and with the highest demographic advantage, requires a strong and healthy work force to sustain its growth levels. It is in our best interests to ramp up efforts to eradicate malnutrition. The prevalence of stunting, wasting, severe undernourishment and underweight among tribal children necessitates for multifaceted approaches, spanning nutrition education, health care accessibility, and socioeconomic empowerment through targeted initiatives, holistic interventions and collaborative endeavors.

### Statistical of Malnutrition:

As per world health organization malnutrition means undernutrition, over nutrition (overweight, obesity) and micronutrient deficiencies. Based on survey of India approximately 35% of children under 5 years in India are stunted, and about 17% are wasted. According to United Nations Children's Fund report one (01) out of four (04) children nationally live in severe food scarcity.

The Government has accorded high priority to the issue of malnutrition and is implementing several schemes like Prime Minister's Overarching Scheme for Holistic Nourishment (POSHAN Abhiyaan), Anganwadi Services, Scheme for Adolescent Girls, under Mission Poshan 2.0 and Pradhan Mantri Matru Vandana Yojana (PMMVY) under Mission Shakti, as direct targeted interventions to address the problem of malnutrition throughout the country including in tribal areas. POSHAN Abhiyaan is a mission mode approach to malnutrition through interventions of technology, multi-ministerial convergence and to focus on converting the agenda of improving nutrition into Jan Andolan through Community Mobilization/ Sensitization and thus bringing nutrition-linked Behavioral Change across India. Under Jan Andolans, Poshan Maah and Poshan Pakhwada are also celebrated annually in the month of September and March respectively.

One of the most unique programmes of the POSHAN Abhiyaan involving people is the

introduction of the 'Poshan Vatika' or Nutri-Gardens. Built within the premises of the house or near schools, these gardens provide a fresh supply of fruits and vegetables. In specific cases, nutrient-dense wild edible food plants and medicinal plants are included. The garden highlights the nutrient content of each plant and how they can help to address specific nutrition issues. Ministry of Ayush has signed Memorandum of Understanding (MoU) with Ministry of Tribal Affairs to implement Poshan Vatika (Nutri-Gardens) in EMRS schools through NMPB.

## 2. RATIONALE OF PROPOSAL

Among the various strategies of improving nutrition among individuals to combat the malnutrition, Poshan Vatika (Nutri-Gardens) is sustainable and viable solution. Plantation of seasonal vegetables, fruits, medicinal herbs at EMR schools will act as dietary source for wide range in vitamins and pigments and other nutritionally important compounds and meet the therapeutic or medicinal needs. Inclusion of this variability in dietary practice will not only help in improving situations of undernourishment, also enhances the student's cognitive ability, disease fighting potential & improvement in immunity. The Nutri -Garden will offer fresh and organic fruits and vegetables to students and serves the purpose to fulfil the nutritional deficiency.

Apart from nourishment, other tangible impacts of Poshan Vatika are followings -

**Learning experience to students-** Hands-on learning experience to students with practical aspects of nurturing and understanding plants the basic concepts of science and biology related to botany, ecology, and plant physiology. They will learn about growth patterns of different plant species, their cultivation and management.

**Significance of plants-** Nutri-Gardens will offer a platform to teach students about traditional medicine, cultural practices, and the historical significance of various plants. Students can learn about nutritional value, economic importance and medicinal importance of plants, fruits and vegetables.

**Conservation and biodiversity-** Students will understand about the conservation and biodiversity of plants.

**Awareness programmes-** IEC activities to create awareness programmes and community outreach programmes.

## 3. AIMS AND OBJECTIVES

- a. Establishment of Poshan Vatika (Nutri-Garden) through planting of various important fruits (regional), medicinal plant (locally available), herbs and vegetables (seasonal) in the identified EMR school premises to fulfil day to day nutritional requirements of school going children.
- b. To aware children about various plants and their nutritional value through IEC activities like, quizzes, campaigns, drawing/ painting competition etc. Preparation and widespread dissemination of user-friendly literature explaining various aspects of nutrition and other benefits.

**Eligibility:** Govt. Organizations & Non-Government Organizations / Voluntary Organizations with demonstrated expertise.

## Norms of Assistance

- Qualified Organizations will be eligible for 100% assistance.
- Rest of the condition remains same as per NMPB CSS guidelines as well as Poshan Vatika (Nutri-Garden).

#### **4. ROLE AND RESPONSIBILITIES**

##### **a. Role of Organization**

The organization from the State/UT will carry out the following activities in consultation with State Horticulture Department, Forest Department, Agriculture Department, RCFC and SMPB etc.: -

- Identify fruits, vegetables and medicinal plants suitable for optimal growth and yield in selected geographical regions of EMR schools
  1. Provide inputs on Land preparation and plantation of seedlings / saplings of fruits, vegetables and medicinal plants.
  2. Conducting IEC activities / Awareness programs related to nutrition, health and plant growth in consultation with NMPB.
  3. Internal monitoring/evaluation and providing regular progress reports on quarterly basis.

##### **b. Role of EMR Schools**

The school must comply with the following pre-requisites:

##### **A. Pre-plantation stage**

- i. Dedicated stretch of land minimum 100 sqm up to 1 acre.
- ii. Suitability of area for plantation.
- iii. School boundary wall / fencing to protect plantation from grazers / cattle.
- iv. Irrigation facility for proposed plantation site.
- v. Electricity supply for plantation site.

##### **B. Post-plantation requirement from School**

- i. Dedicated manpower to maintains the Poshan Vatika (Nutri-Garden).
- ii. Continuous monitoring the progress of Poshan Vatika (Nutri-Garden) and preparation of reports along with GPS based photographs on quarterly basis.
- iii. Sensitization/Awareness activities through schools.
- iv. Dissemination of information through IEC material.

##### **c. Role of Ministry of Tribal Affairs**

To provide the list of Schools fulfilling the pre-requisite conditions

##### **d. Role of Ministry of Ayush: -**

Financial support as per approved norms.

1. Technical support for establishment of Poshan Vatika (Nutri-Garden).
2. Overall Monitoring and Evaluation of the progress / performance.

#### **5. WORKPLAN**

**Selection of Schools and cultivable land – Establishment of Poshan Vatika**

(Nutri-Garden) in EMR Schools will be selected as per approved norms. Land development activities such as ploughing, digging, cleaning, levelling etc. for developing cultivable land in the beginning of the project. The selected schools should have basics facilities as mentioned in the guidelines.

**Plant selection-** Leafy vegetables (seasonal and locally available) and perennials (like drumstick), medicinal plants, spices and herbs are suitable for plantation. Vegetables being a seasonal crop, yielding period and sowing date to be estimated for sowing cycle and planned accordingly for continuous supply of vegetables throughout the year. Dwarf, quick yielding with small/medium canopy plants for fruits to be selected like guava, banana, papaya, pineapple, passion fruit, butter fruit, carambola etc. Large and medium sized medicinal plants (regionally abundant) to be planted in larger proportions.

List of plants are provided in **Annexure- II**

**Design and planning-** Detailed layout of garden is planned with arrangements for large plants, medium sized plants, shrubs and herbs according to canopy and direction of sun rays. Garden will be design as per proposed model layout in **Annexure-III**

**Procurement of saplings and Seeds** – Saplings (Quality planting material) will be procured from reliable sources of forest department/ horticulture/ RCFC / SMPB / Nurseries etc. for medicinal plants, fruits, spices, herbs and vegetables.

**Plantation-** Northern-Western side of garden is suitable to grow large plants while South-Eastern part is largely for fruits and shrubs. Intercropping will be done with perennial underground vegetables and herbs in rows between large plants as well as on the borders of garden. Plantation should be done in a manner to incorporate maximum plants, trees, herbs, shrubs etc. to have optimum utilization of land and resources.

**Cultivation-** Organic method of crop cultivation to be adopted for nutrient supply (compost, vermicompost, farm-yard manure, coco-peat, bio-fertilizers etc.) and plant protection through bio agents in place of synthetic chemicals.

**Labelling and tagging-** Signage and description will be prepared for each proposed medicinal plant, fruit and herbs. May also put QR- codes for identification to create awareness.

**Further maintenance of garden** -Activities such as weeding, pruning, and removing debris, irrigation, shade development, casualty replacement, and biological pest management will be carried out as and when required for the maintenance of the garden.

**Dissemination of knowledge-** Awareness programs will be conducted for various stakeholders, particularly students and local communities about nutritional value of plant sources and medicinal importance of plants and herbs. Practices associated with sustainable plant cultivation and conservation can also be highlighted.

## 6. MILESTONES WITH DELIVERABLES

Duration of project –the proposed duration of project is 03 years

Activities	Time frame
------------	------------

Identification of land	Beginning of project
Land development, water resources arrangement	1 <sup>st</sup> -3 <sup>rd</sup> month
Procurement of planting material	4 <sup>th</sup> month
Plantation work	5 <sup>th</sup> -12 <sup>th</sup> month
Maintenance	13 <sup>th</sup> -36 <sup>th</sup> month

## 7. OUTCOMES (TANGIBLE AND INTANGIBLE)

*Poshan Vatika* (Nutri-garden) will provide a sustainable and accessible source of nutritious food and medicinal plants and herbs throughout the year to the school going children.

1. It will promote better health and reducing malnutrition's among students as it enhances the consumption of micronutrient rich fruits, vegetables and herbs.
2. Awareness about use of medicinal plants, means of cultivation, conservation and management of fruits, vegetables and important medicinal plant resources.
3. Awareness programs conducted among school children's is learning experience for students to understand the nutritional values of plants, their relevance in daily life, their growing practices, their conservation and management.

## 8. MONITORING FRAMEWORK can be done with existing procedure

### 8.1 Reporting frame work (till three years)

1. Quarterly reporting
2. Annual reporting

## 9. BUDGET (RECURRING AND NON-RECURRING BUDGET)

Details of financial implication for minimum **100 sqm up to 1 acre land** is as under: -

**Note: Financial implication for 100 sq mt area is INR 7,00,000 for 3 years (1<sup>st</sup> Year for Establishment INR 4,50,000, 2<sup>nd</sup> Year for maintenance INR 1,25,000, 3<sup>rd</sup> Year for maintenance INR 1,25,000)**
